SUCCESS STORY IN > 40 MARKETS

ERGOVENT is an innovative manufacturer of integrated ventilation solutions, based in Lithuania, Northern Europe and exporting over 40 countries worldwide. We take great pride in some of the best ventilation diffusers in the industry, earning appreciation from interior designers, ventilation specialists, and end-customers.

Our **premium quality products** ensure functional aesthetic solutions for ventilation that organically blend into modern, stylish and trendy interiors.

We strive to lead in creating cutting-edge integrated ventilation solutions.

ALFA ARCHITECTES PROJECT: CABINET OLIVIER IN SAINT-ÉTIENNE FOR DR CONTENCIN (FRANCE)

Project was guided by a refined balance between functionality and aesthetics, with a strong emphasis on clean integration to create a hygienic, modern atmosphere essential for clinical and wellness environments.

During our research, we discovered the ERGOVENT outlets, which stood out for their discreet and innovative design. Their technical qualities, combined with the ability to adjust airflow and integrate seamlessly into the project's aesthetic, made them the ideal choice for our dental practice project "Cabinet OLIVIER" in Saint-Étienne for DR Contencin. We selected ERGOVENT outlets, specifically the RONDO model. This choice was driven by our goal to make the ceiling's technical elements as discreet as possible while maintaining optimal performance.

“

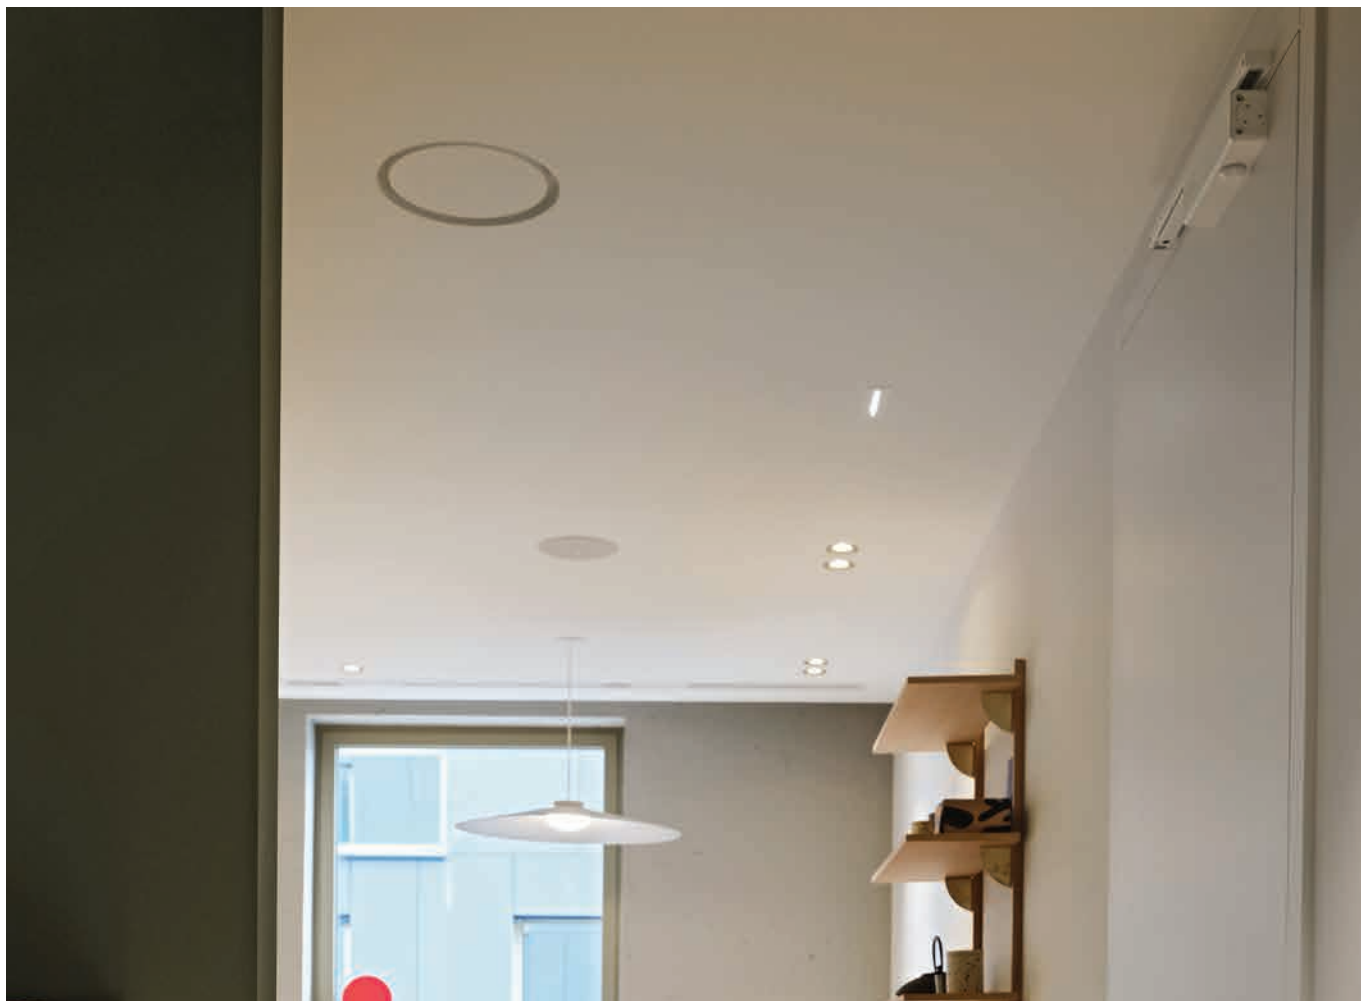

TAURAS HILL APARTMENTS IN VILNIUS (LITHUANIA)

A modern and distinctive interior, created in collaboration with interior designer Ainė Janušienė at "Išmanus Interjeras", required not only aesthetics but also advanced engineering solutions. The interior is modern and expressive, a stylish, cozy, and carefully thought-out space designed for those who appreciate exceptional design.

Ventilation solutions

The ventilation and air conditioning systems were carefully built into the space so they remain hidden while keeping the rooms comfortable. ERGOVENT the original air vents, along with Brofer grilles and hidden elements inside the furniture, help move air quietly and efficiently without being seen. It's a smart combination of design, technology, and comfort for the people using the space.

PARTNERSHIP FOR PREMIUM INSTALLATIONS IN LUXURY VILLAS AND CORPORATE OFFICES (THE NETHERLANDS)

Econox is a technical wholesaler of premium HVAC products in the Netherlands and Belgium. The company specializes in providing advanced solutions to a wide range of sectors, including residential, commercial, and industrial spaces. With a commitment to excellence, they partner with top-tier brands to supply customers with products that meet the highest standards of functionality, sustainability, and design.

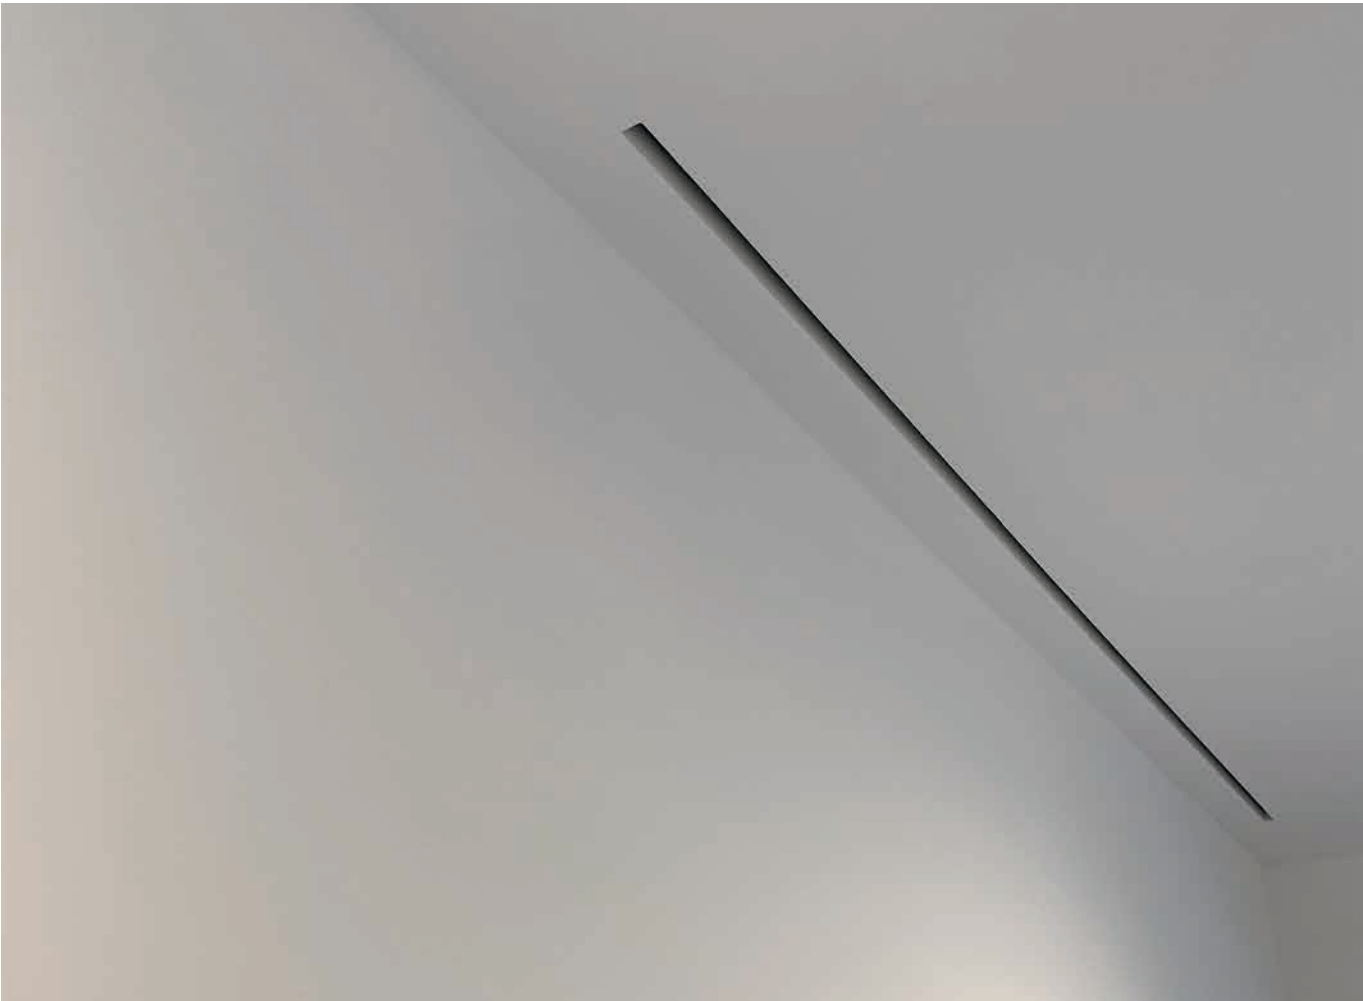

We have had a positive experience with ERGOVENT diffusers over the years. The primary reason for choosing them was their combination of high-performance functionality and aesthetic appeal, which is increasingly important to our clients in the luxury residential and commercial segments. ERGOVENT hidden design was a key selling point, as it fits effortlessly into modern and minimalist spaces. They are widely appreciated for both their visual elegance and technical performance.

“

REINVENTING APARTMENTS IN THE HEART OF OSLO (NORWAY)

Stål og Glass AS is an entrepreneurial company dedicated to building and rehabilitating homes. Specializing in both new construction and renovation projects, Stål og Glass strives to elevate every space by combining deep expertise in architecture, design, and engineering. From custom railings and stairs to unique ventilation solutions like the ERGOVENT hidden ventilation diffusers, Stål og Glass AS's product offerings embody quality and forward-thinking solutions for homeowners.

A key decision was incorporating ERGOVENT hidden ventilation diffusers. These state-of-the-art diffusers are not only highly efficient, ensuring optimal airflow and comfort throughout the apartments, but their sleek, discreet design also aligns perfectly with our aesthetic vision. They complemented the space beautifully and were easy to install, with no complications.

“

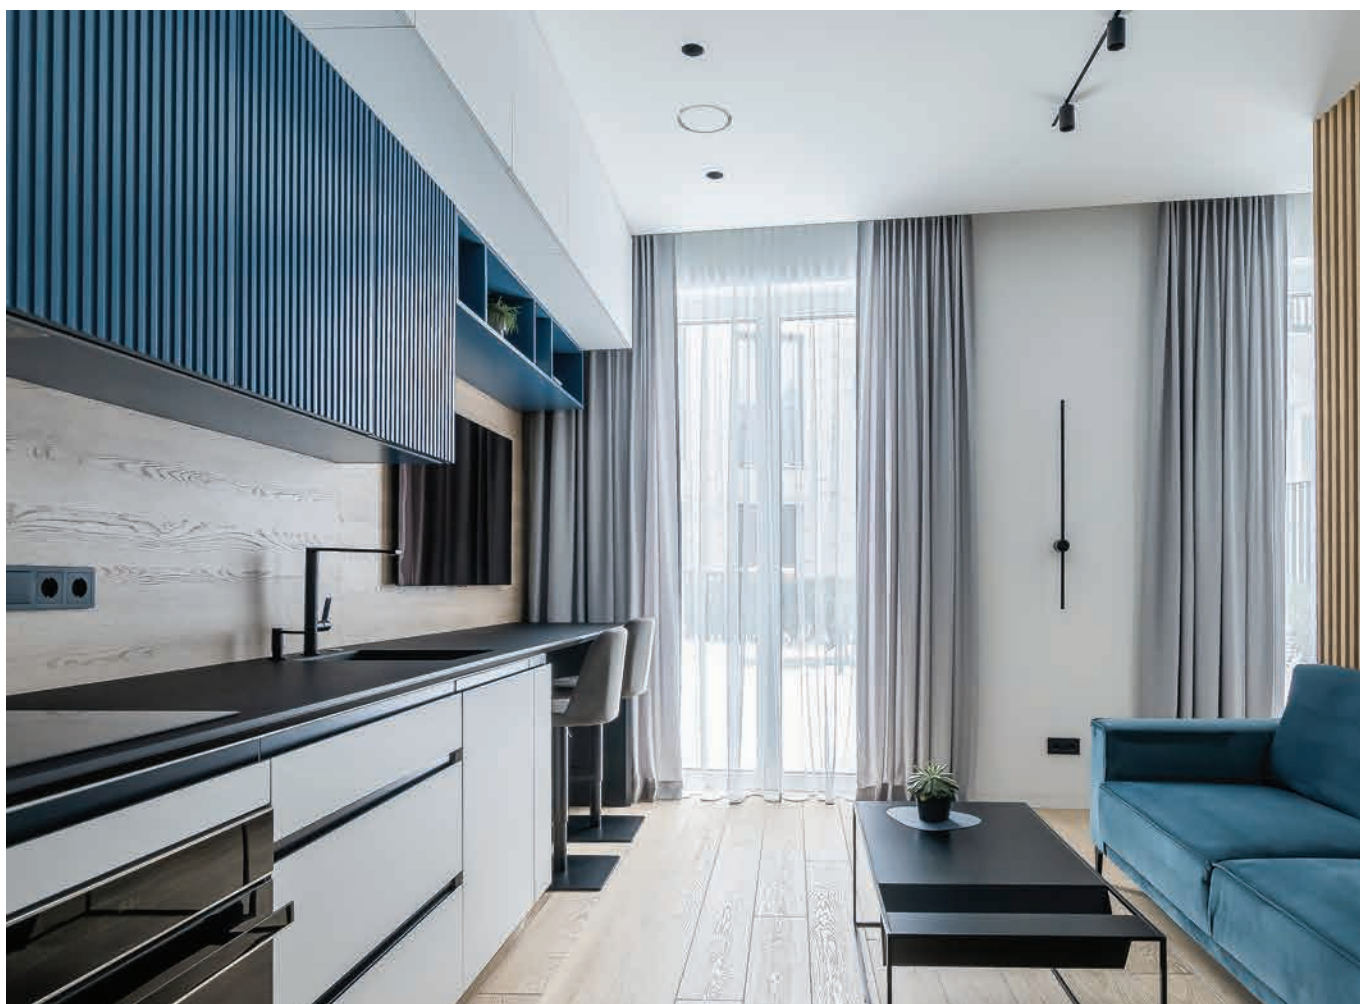

HIDDEN VENTILATION SOLUTIONS IN PROFESSIONAL INTERIOR DESIGN PROJECTS

ERGOVENT hidden ventilation solutions have become an essential part of modern interior projects – from private residences to public spaces. Diffusers are seamlessly integrated into walls and ceilings, maintaining a clean aesthetic while supporting the overall design vision. This way, ventilation remains invisible while ensuring the highest level of comfort and functionality in contemporary interiors.

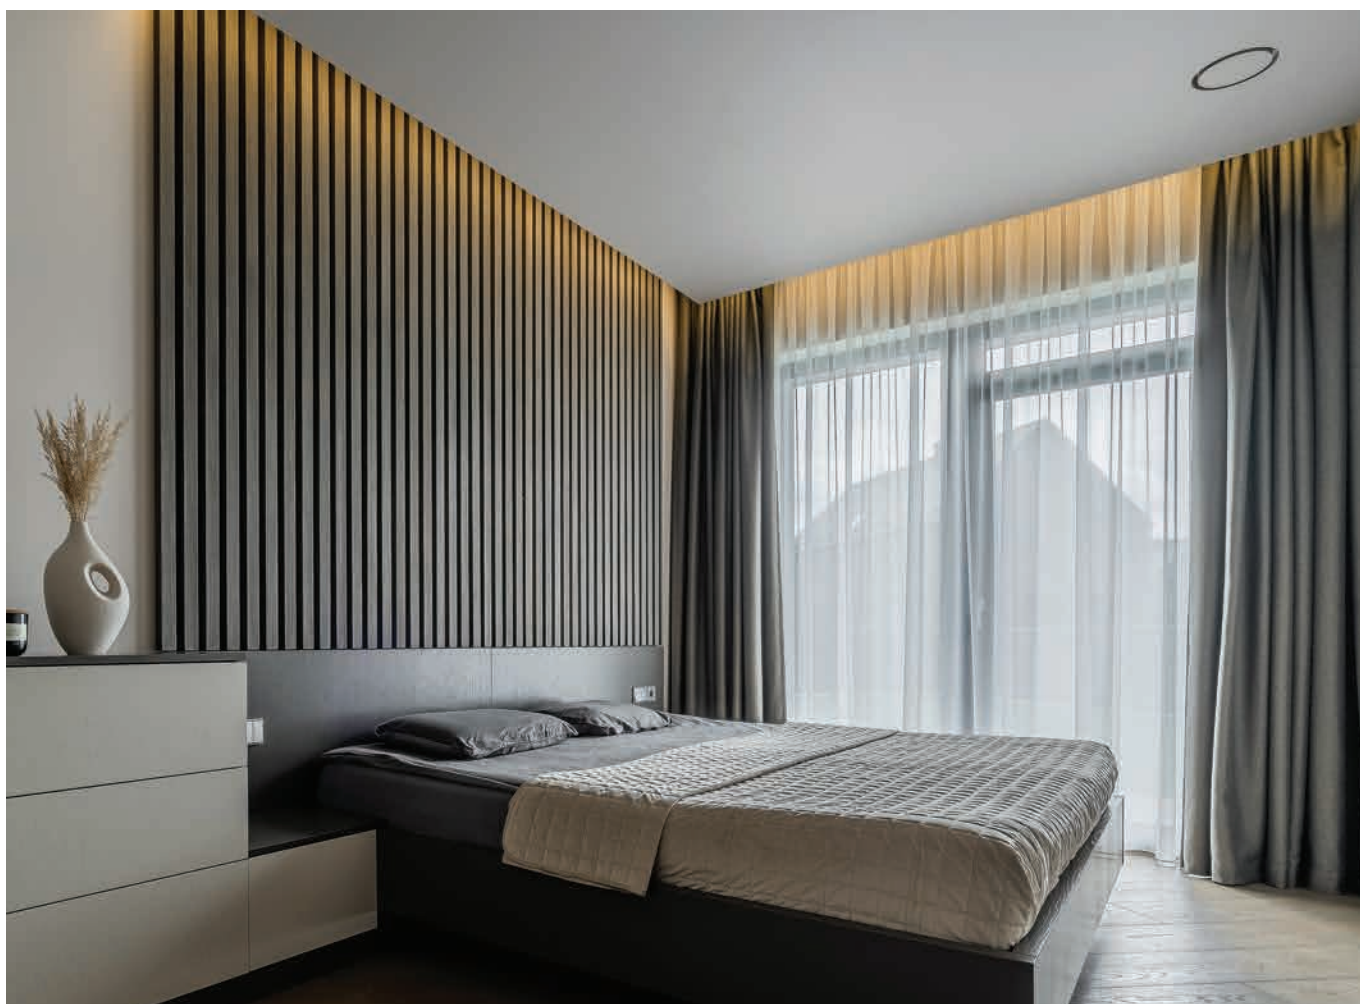

AWARD-WINNING ERGOVENT VENTILATION DIFFUSERS FOR STYLISH INTERIORS

ERGOVENT diffusers have earned prestigious international awards for their balance of function and design. The LINEO PRO PUZZLE received the **iF Design Award 2025**, while the RONDO hidden diffuser was honoured with the **Red Dot Award 2023** and the **German Innovation Award 2023** for its innovation and minimalist aesthetics.

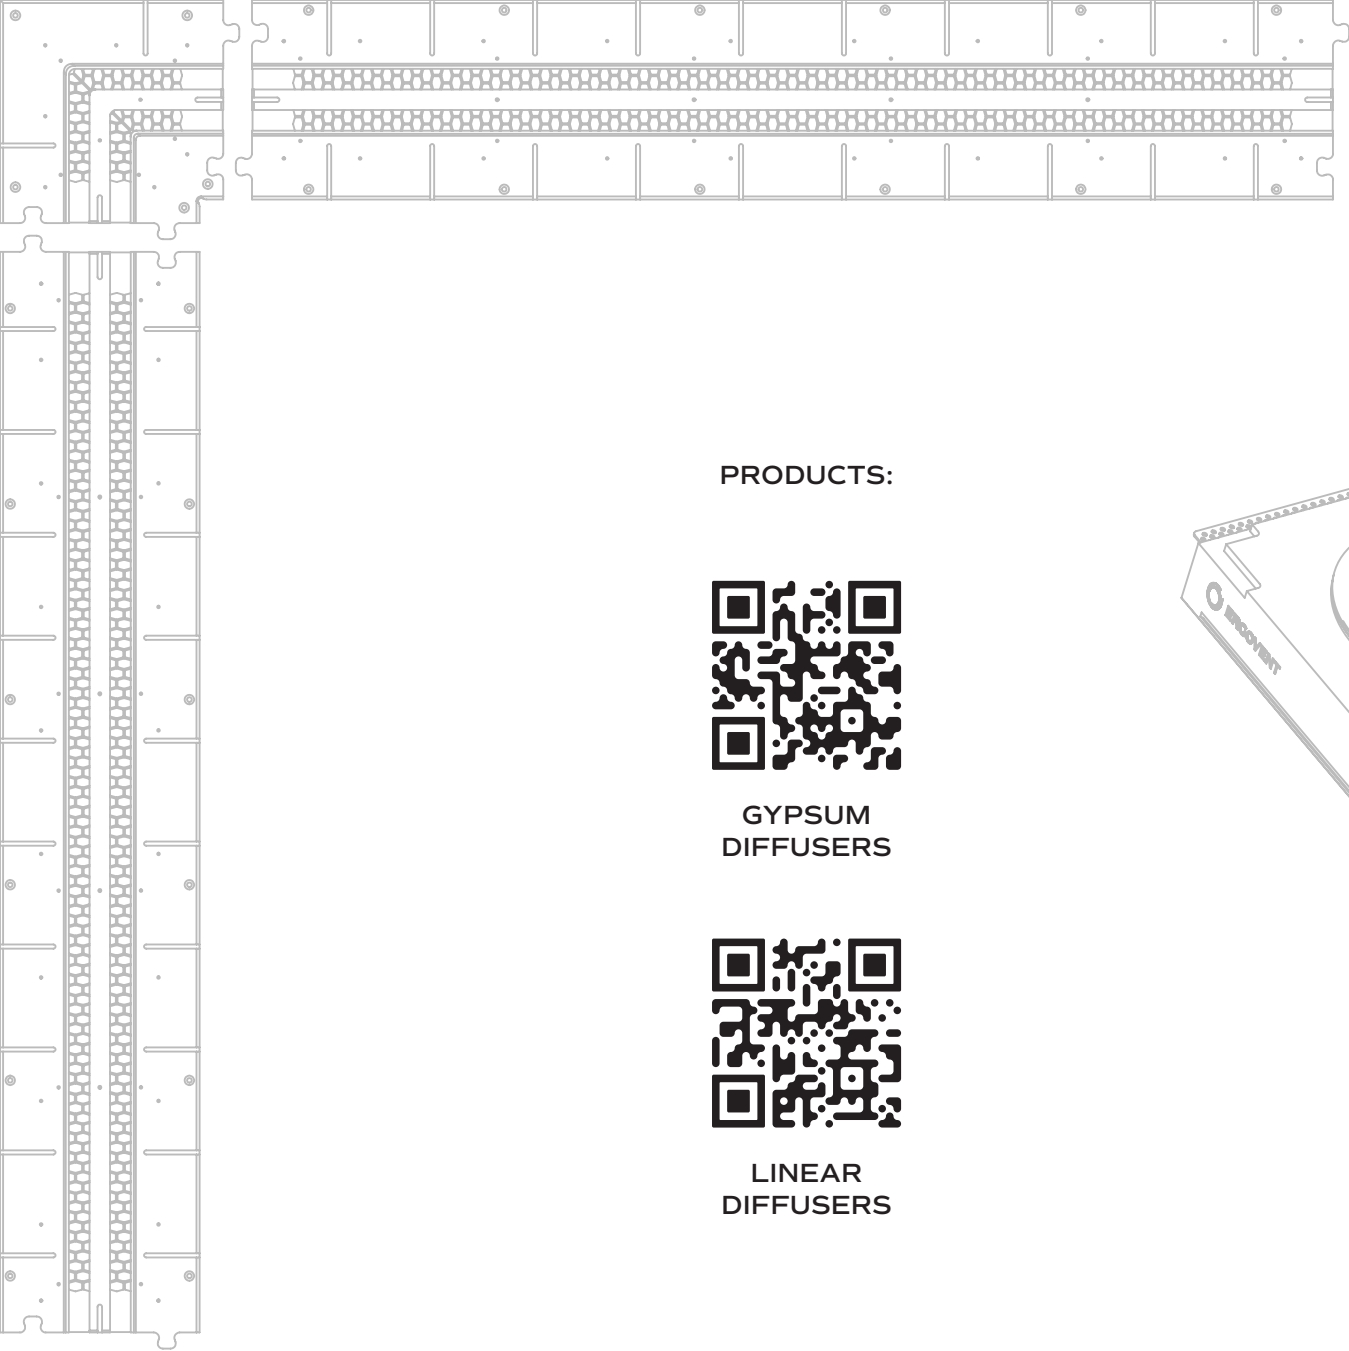

These achievements confirm ERGOVENT leadership in transforming ventilation components into stylish interior design elements.
